Free Trade or Reciprocity.

When we find men who are capable of thinking and reasoning, taking up their pens for the purpose of pointing out what they consider feasible and desirable schemes for ameliorating the condition of the country, we are not without hope that sufficient interest will be aroused amongst those people in the Colony who are not by nature or constitution grumblers, to lead them to a fair consideration of the main questions of the day. It is only by a fair discussion of both, nay of all sides, when there are more than two sides to a question, that the right can be arrived at; we have not the least desire to "foment growling," nor can we have the slightest wish to make the people of the Colony dissatisfied with the present state of affairs; these things grow too easily of themselves; they spring into existence from want of employment, more particularly if that want is caused by lack of prosperity, and they are fostered and cherished by careless government. The most ardent supporters of Confederation have not set up the cry of misgovernment and high taxation, as reasons for joining the Dominion, but have been driven to seek, under a more liberal form of government, that which they are unable to obtain under the present system. Our correspondent upon Free Trade avows himself an enemy to Confederation, and whilst he deprecates the complaints which will make themselves heard, when defects which are capable of being remedied exist in the administration of public affairs, he admits, like a sensible writer, that it is the duty of the people to seek for, discover, and make use of such remedies as may benefit the present state of things; and as the most powerful of these remedies he suggests "Free Trade in Vancouver Island, in all such articles as are not produced in the country." Whether the writer is one of the old supporters of the Free Port of Victoria, who has come forward now with this attempt at a compromise between Free Trade and Tariff, we cannot gather from the contents of his letter, although we have read it attentively. The proposition put forward is evidently founded on expediency and not upon principle; it has not the true elements of free trade, for it would directly or indirectly tax every necessary of life, and if it increased the population of the cities, it would throw upon them the burden of contributing to the support of the agriculturalists to an extent that the relative cost of producing wheat in Vancouver Island, and in Oregon and California will not justify. It may be expedient to give encouragement to one section of a community at the expense of another class, temporarily, and for reasons which are applicable to localities rather than countries, but it is not true political economy. We would ask our correspondent, what advantages his system of partial free trade would give to Victoria, which could not be gained not only to this city but to the whole Colony; by a treaty of Reciprocity with the United States; if we were to adopt the proposed principles of free trade without reciprocity, we should be fostering our agricultural interests to the manifest detriment of every other producing interest in the Colony, and after having once adopted even a partial system of free trade, we should find it far more difficult to conclude an equitable treaty than it would be now, that we have a tariff. Free trade in Victoria would probably be the means of renewing that division of interest between the Island and the Mainland, that we all hoped might be put to an end by the Union; the partial system would necessitate a Custom House staff here and another at New Westminster, and would entail upon us a most complex and expensive system of collection of revenue. Reciprocity between this Colony and the United States would, on the other hand, tend to simplify the system and lessen the cost of the collection of revenue. What right have the Legislature of this Colony to say to the owner of an extensive coal field, "you shall not work your coal, you shall not buy and sell nor traffic with your neighbours in San Francisco, but you shall spend your capital in cultivating the soil and growing wheat, to supply the population that we intend to bring into the cities for the purpose of dealing in hardware, iron, glass, dry goods, wine, oil and sugar; there is coal enough for them already, but for

wheat we shall be dependent upon other countries if you do not produce it?" Surely this would be subversive of all true political economy. Reciprocity, on the other hand, contains the highest elements of liberal free trade policy, it has its origin in the natural dependence of the inhabitants of one climate upon those of another for the auxiliaries, if not the necessities of life. It is fostered, to use the words of one of the most eloquent of the free trade champions speaking in the House of Commons about a quarter of a century ago, by the fact of "different countries yielding different productions to people experiencing similar wants," and amongst the effects springing from it are that "it causes the exchange of commodities to be accompanied by the extension and diffusion of knowledge, and by the interchange of mutual benefits, engendering mutual kind feelings, and multiplying and confirming friendly relations, and that it causes commerce to go freely forth, leading civilization with the one hand and peace with the other, rendering mankind happier, wiser, and better." We would rather see our correspondent, who evidently desires the prosperity of the whole Colony, and not any isolated part of it, endeavoring to attract the attention of the people of the country, upon whom, as he very justly remarks, the prosperity of the country depends, to a policy that will benefit the whole community, not pitting Free Trade against Confederation, as if really change was all that was necessary for a wayward people, but advocating a liberal system of government that will aid the natural advantages of the Colony in attracting population to our shores.

Editorial Correspondence No. 9.

ALEXANDRIA, Va, July 29, 1868.

This city is situated eight miles south of Washington, on the opposite bank of the Potomac. It contains about 35,000 people, nearly one-half of whom are colored. The houses are principally brick, and old fashioned in architectural design and finish. The city has a dull, sleepy appearance; grass grows in the principal street, and in the side thoroughfares a crop of hay might be cut annually. The inhabitants are quite as dull and sleepy-looking as their town, and the only evidence of activity which I observed was that evinced by a resident ("an original Secessionist" he termed himself,) when we asked him the way to the Marshall House, he was sitting on an old packing case in the middle of one of the street pastures. He sprang to my feet in a moment, gazed cautiously around and said—"You mean the place where Ellsworth was killed, don't you? Well, I kin, show you the very premises," and the man obligingly led the way towards the 'sacred precincts' of the famous spot where ran down the first blood shed on Virginia soil in the civil war. He claimed to have 'ben ther' when the shooting was done, and led us proudly up the stairways to the roof, where we saw the flagstaff from which Ellsworth removed the secession flag, and gathering it in his arms, prepared to descend to the street. He reached the foot of the flight of stairs leading from the attic, when suddenly a door on the opposite side of the landing, which was closed when the party passed up, was flung open, and Jackson, the proprietor of the house, appeared with a gun, and before any one could interfere to prevent the act—before indeed, the gallant youth who carried the rebel ensign in his hand could have been fully aware of his intention, he fired. The leaden messenger sped true to its mark, and Ellsworth, pierced through the heart, fell dead. But his assassin's triumph was short. Before the report of the gun had fairly died away and the weapon still remained at his shoulder, the Fire Zouave who stood next to Ellsworth shot him through the head, and spitting him with his sword-bayonet, hurled his lifeless corpse headlong down the stairway.

We stopped to out from the bannister a small remembrancer. "Ha, ha!" laughed the guide, 'you're too late. Them bannisters and stairways and them doors has all bin cut away three times already. The folks used to sell a power of cures to the green-ones from the North who come down here to see the spot whar the matter—as they called him—died. But there wasn't an 'em was genuine—they was all manufactured from Yankee wood up in Massachusetts for sale here.' But the rallery of our guide did not induce us to desist from our effort until a piece of the bannister had found its way into our pockets.

'What kind of a man was Jackson?' we asked. 'Wall, he was a strange kind 'o man; but a regular out-and-outer,' 'What's that?' 'Wall, he was a man when he said a thing he meant it. He put the flag up two months afore the Fed'als come, and said he to me, the man that takes that down, dies—I'll kill him.' 'Why didn't you tell Ellsworth of his danger and save his life as well as your friend's by having proper precautions taken to prevent Jackson carrying his threat into execution?' 'Wall I'll tell you. It wasn't fur me to betray the cause, I believed in it, and besides if I did not had told, Jackson would have killed me. Besides, what would the Fed'als have said? Why, they'd have said I must be a rebel to talk with a rebel, and they'd have put me in the Capitol prison. Besides, added he in a cautious manner and low tone, 'if thar'd bin a few more like Jackson on our side, there'd be a bin a different story to tell to-day.'

Descending from the Marshall House, we

feed the 'unrepentant rebel' and spent several hours in walking about the city. The Freedmen are very numerous, and their condition is even worse than that of their brethren in Washington. Little, if any, business was being transacted, and the townspeople with whom we conversed were generally discontented with their prospects; only one new building was observed in course of construction. A death-like stillness hung like a pall over the place, and we were glad when the train which was to carry our party to Manassas Junction and Ball Run came in view.

Cariboo News.

Owing to the severe drought many of the mining claims had suspended working for want of water. The season is the driest experienced. Rain set in on the 8th inst. The Tab co, on Mosquito creek, struck a prospect of \$7 to the pan. It is looked upon as establishing an important fact. Large fires are raging in the vicinity of Richfield. A man named Emanuel Gathez died at the hospital on the 3rd. Rev Mr Reynard designs opening a day school for children. Capt Mitchell despatched and captured a fine fat black bear in the South Fork Lake.

MINING INTELLIGENCE.

We can present but a very meagre mining report this week owing to the almost entire suspension of mining operations throughout the entire Cariboo country for the want of water. The present drought is unprecedented, and should it continue much longer it will detract very much from the prosperous results so universally anticipated by the promising indications throughout the former part of the season, of a good fall return.

WILLIAM CREEK.

Above the canyon, one company only had a wash-up—the Tyack—which cleared up 35 oz. Below the canyon, the Bald Head washed up 121 oz; the Barker co, 25 oz; the Aurora, 42 oz; the Sheepskin, 36 oz; the Lillocet, 30 oz.

STOUT GULCH.

The Floyd and the Alturas are the only companies now able to work. The former washed up last week 120 ozs, and the latter 72 ozs.

MOSQUITO CREEK.

The Minnehaha co washed up for the week 205 oz; the Hocking, 124 oz; the Willow, 20 oz. Point co have a lot of boulders to contend with. Tab co are busy rigging up. The Discovery co washed up 18 oz; Holman co, 23 oz; Jeffries co, 27 oz.

RED GULCH.

Discovery co prospecting. United co prospecting. Butcher co taking out good pay. Tom and Jerry have found good pay; 10 or 12 ozs to the set. Big Lead have again started with 12 men to sink. Catch-it co, 11 ozs for the week.

HARD-SCRABBLE CREEK.

The company under Hilton is pushing in its tunnel fast, and the indications continue to prove more favorable.

GROUSE CREEK.

The Flume co continues to take out good pay; they washed up last week 185 oz. The Hard-up co are sinking in the channel, and are down about 10 feet getting prospects of fine gold. The Ne'er-do-well co are taking out pay. All the other claims are idle for want of water.

LIGHTNING CREEK.

Lightning co are ground sluicing; Great Western co, drifting. A new company has located ground in the bend above Van Winkle, and intend commencing operations at once.

PETERS CREEK.

The Discovery co washed up 324 oz. for the week—four men working. No other claims have struck anything as yet.

ANDERSON CREEK.

The Discovery co and the Emily co are taking out pay. Several companies are prospecting for a back channel. Most of the companies on the small creeks in the vicinity of Lightning are unable to work for want of water.

CEDAR CREEK.

The Aurora co are making wages.

KEITHLEY CREEK.

The Cascade co alone is taking out pay.—Sentinel.

HOLLOWAY'S PILLS.—Enfeebled Existence.—This medicine embraces every attribute required in a general and domestic remedy; it overturns the foundations of disease laid by defective food and impure air. In obstructions or congestions of the liver, lungs, bowels, or any other organs, these Pills are especially serviceable and eminently successful. They should be kept in readiness in every family, as they are a medicine without a fault for young persons and those of feeble constitutions. They never cause pain, or irritate the most sensitive nerves, or most tender bowels. Holloway's Pills are the best known purifiers of the blood, and the best promoters of absorption and secretion, and remove all poisonous and obnoxious particles from both solids and fluids. 23

JOHN HEAL.

Valuable Farm to Lease.

TO LEASE, FOR A TERM OF 3, 5 or 7 years, a Valuable Farm at Comax, Vancouver Island, comprising 310 acres of very fertile land.

Nearly 60 acres are fenced and under cultivation, and upwards of 200 tons of produce have been raised this season.

Nearly all the Farm is Prairie Land, well watered, and offers great advantages to any person wishing to farm extensively.

The House and Farm Buildings are substantially built and in good repair.

There is a Dairy of 9 Cows; 2 Yoke of Working Oxen, 20 head of Store Cattle, and 100 Hogs, &c., all of which can be taken at a valuation if required.

The steamer Sir James Douglas makes monthly trips to Comax, and the steam Alarm tugboat, and offers great facilities for shipping produce.

For further particulars apply to MR BAILY, the owner.

Comax, V. I., Aug. 25th, 1868.

Victoria Gas Company, Limited.

NOTICE TO CONSUMERS.

CONSUMERS OF GAS ARE HEREBY notified that on and after 1st October next, the price of Gas will be reduced from the sum of \$7.50 to the sum of \$6 per thousand cubic feet. The system of discounts adopted on 1st October, 1867, will be discontinued from the above date.

By order of the Board of Directors, C. W. R. THOMSON, Secretary.

Groceries and Provisions.

LEA & PERRINS'
Worcestershire Sauce.
 DECLARED BY CONNOISSEURS
 TO BE
THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD.
 The success of this most delicious and unrivalled
 Condiment having caused certain dealers to apply the
 name of "Worcestershire Sauce" to their own inferior
 compounds, the Public is hereby informed that the only
 way to secure the genuine is to
ASK FOR LEA & PERRINS' SAUCE
 and to see that their names are upon the wrapper, labels
 stopper, and bottle.
 Some of the foreign markets having been supplied with
 a spurious Worcestershire Sauce, upon the wrapper and
 labels of which the names of Lea & Perrins have been
 forged, L. and P. give notice that they have furnished
 their correspondents with power of attorney to take
 instant proceedings against Manufacturers and Vendors
 of such, or any other imitations by which their rights may
 be infringed.
Ask for LEA & PERRINS' Sauce, and see Name
Wrapper, Label, Bottle and Stopper.
 Wholesale and for Export by the Proprietors, Worces-
 ter: G. & J. Lea & Co., Ltd., and by
 Grocers and Dealers everywhere.

TO THE UNFORTUNATE
NEW REMEDIES, NEW REMEDIES.
Dr Gibbon's Dispensary,

616 KERNAN STREET, NEAR
 Commercial, San Francisco. Established in
 1854, for the treatment of Scrofula and Seminal Diseases,
 such as Gonorrhea, Gleet, Stricture, Syphilis, in all its
 forms, Seminal Weakness, Impotency, &c. Skin dis-
 eases (of years standing) and Ulcerated Legs success-
 fully treated.
 Dr. GIBBON has the pleasure of announcing that he
 has returned to this State, after an absence of one year
 during which time he visited all the principal Hospitals
 of Europe, among them those of Dublin, London and
 Paris. The following celebrated Hospitals of London are
 among those visited by the Doctor: Guy's, High Street,
 Borough; St. Bartholomew's, Smithfield; St. Luke's, Old
 Street; St. Mary's, Camb. Place, Pad.; Lock, Harrow
 Road; University, Gower Street; Westminster, Broad
 Sanctuary; Charing Cross, Agar Street, Strand; King's
 College, Portland Street.
 Dr. Gibbon has spared neither time nor money in seek-
 ing out the most reliable and most successful remedies for
 the alleviation of human suffering.

Horrible Diseases.
 How many thousands of persons, both male and female
 are there who are suffering out a miserable existence
 from the effects of secret indulgence, or from
 virus absorbed into the system. Look at their pale
 face, emaciated and discolored features, and their broken
 down constitutions, disqualifying them from the hap-
 piness of marriage or of the enjoyment of life. In this hor-
 rid situation thousands suffer until death closes the
 scene. Let parents, guardians, friends, attend to those
 who are suffering with any of those horrible, life-destroy-
 ing maladies—see that they are cured, and cured before
 it is too late. Send immediately to Dr. Gibbon, a
 physician who has made private diseases his special
 study for years, who is certain to cure the most inveter-
 ate cases without mercury or any injurious drugs. It is
 important to those afflicted, or to those who are inter-
 ested in the welfare of their friends, to be careful of the
 many pretended Doctors who infect all cities, publishing
 their skill in curing all diseases in a few days, imposing
 upon the public by using the names of our eminent physicians
 from European and other places. Be therefore careful, and
 make strict inquiry, or you may fall into the hands of
 those charlatans.

Menstrual Weakness.
 Seminal Emissions, the consequence of self-abuse. This
 solitary vice, or depraved sexual indulgence, is practised
 by the youth of both sexes to an almost unlimited ex-
 tent, producing, with unerring certainty, the following
 train of morbid symptoms, unless combated by scientific
 medical measures, viz., Saline contamination, dark spots
 under the eyes, pain in the head, ringing in the ears,
 uneasiness about the loins, weakness of the limbs, con-
 fused vision, blurred intellect, loss of confidence, diffi-
 dence in approaching strangers, a dislike to form new ac-
 quaintance, a disposition to shrink from society, loss of mem-
 ory, hectic flushes, pimples and various eruptions about the
 face, gutta serena, fetid breath, coughs, consumption,
 night sweats, morbosities, and finally, if not relieved, a
 train of nervous and cerebral diseases. It is a relief
 to be let by letter, and have a cure effected by his new and
 scientific mode of treating this disease, which never fails
 of effecting a quick and permanent cure. Dr. G. will give One
 Hundred Dollars to any person who will prove satisfactorily
 to him that he was cured of this complaint by
 either of the San Francisco quacks.

MARRIED MEN.
 Of those who contemplate marriage, who are suffering
 under any of those fearful maladies, should not forget the
 moral responsibility resting upon them not to delay to
 obtain immediate relief.
 Dr. Gibbon is responsible, and will give to each patient
 a written instrument, binding himself to "see a radical and
 permanent cure, or make no charge."

Cured at Home.
 Persons at a distance may be CURED AT HOME, by
 addressing a letter to Dr. Gibbon stating case, symptoms,
 length of time the disease has continued, and have
 medicine promptly forwarded, free from damage and
 medicine promptly forwarded, free from damage and
 directions or use. By enclosing \$16 in currency or \$10
 in coin, in a registered letter through the Post office or
 through Wells, Fargo & Co., a package of medicine will be
 forwarded by express to any part of the Pacific Coast.
 Address J. P. Gibbon, 616 Kearney Street, corner
 Commercial, San Francisco. Post office box 252.
 Return to Dr. G. P. Box 252 on the letter.
 Consultations FREE.
 Correspondents will please inform Dr. Gibbon that
 they read his advertisement in the British Colonist.

VICTORIA PERFUMERY
 YLANGYLANG.
 ROI DES PARFUMS
 RIGAUD (AND CO) PARIS

45 Rue de Richelieu.

THE KING OF PERFUMES.
 THE VICTORIA PERFUMERY is now adopted by
 the ELITE of the aristocracy and fashionable world
 on account of the superior articles for the toilet
 each of which has been made a specialty.

The new perfumes prepared with the ESSENCE
 of YLANGYLANG extracted by distillation from the
 UNGA ODORATISSIMA and imported from the
 Philippine Islands are beyond comparison for
 their delicacy and sweetness. We therefore re-
 commend the BEAU MONDE to try as a handker-
 chief perfume.

THE EXTRACT OF YLANGYLANG
 AND
THE MANILLA BOUQUET

Besides these, which are the exclusive property
 of their house, Messrs RIGAUD and Co prepare in
 a most approved and superior manner all the fash-
 ionable scents, amongst which we may mention the

Ess Bonquet	Wood Violet	Mignonette
Jockey-Club	Marechal	Jessamine
New Mown Hay	Mousseline	Magnolia
Field Flowers	Rondeletia	Rosa-Rose

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman
 of beauty, preserving the freshness of the skin
 and the fairness of the complexion. It is the per-
 fection of science adapted to the toilet, and is in-
 contestably superior to Eau de Cologne, or the
 most esteemed of vinegars and the Florida
 water.

**THE MIRANDA HAIR-OIL AND
 POMATUM.**

Is a remarkable preparation which may be
 called a real treasure for the hair. It is com-
 posed of tonic and fortifying compound, and it
 beautifies and preserves the hair at the same time
 as it imparts to it a most refreshing perfume.

MIRANDA SOAP,
 COMPOSED MAINLY OF THE MILK OF THE
 LETTUCE AND THE LILY.

A simple comparison of this soap with others
 sold by the perfumery trade, suffices to prove its
 superiority. It gives the skin a deigh by
 surface, it lathers abundantly, forming a real
 milk-bath, and is all that can be desired as to
 perfume.

DENTORINE
 AND TOOTH-PASTE.

THE "DENTORINE" is a pleasant elixir for the
 teeth; it perfumes and refreshes the mouth,
 strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution
 in this class of toilet necessary, and has done away
 with powders and opiates that are more or less
 acid and dangerous. A brush passed over it pro-
 duces a soft and unctuous mucilage that gives the
 teeth a brilliant whiteness.

THE ROSE POWER

Preserves the skin from the roughness of the
 wind and the cold, gives it a soft freshness, and
 prevents red spots and freckles. It is far superior
 to rice and starch powders, and it is deliciously
 perfumed.

Premium Purchasers of Two Articles of
RIGAUD & CO., are entitled to
 receive Gratuitously the

LITTLE MONITOR,
 A Guide to the Toilet, with PHOTOGRAPHIC
 ILLUSTRATIONS.

Medical.

French Medicines,

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

These different medicines represent the most recent
 medical discoveries, founded on the principles of Chem-
 istry and Therapeutics. They must not be confounded
 with secret or quack medicines, as their names suffi-
 ciently indicate their composition; a circumstance which
 has caused them to be appreciated and prescribed by the
 Faculty in the whole world. They widely differ from
 those numerous medicines advertised in the public
 papers as able to cure every possible disease, as they are
 applicable only to but a very few complaints. The most
 stringent laws exist in France with regard to the sale of
 medical preparations, and only those which have under-
 gone an examination by the Academy of Medicine
 and have been proved efficacious, either in the hospitals
 or in the practice of the first medical men, are author-
 ized by the Government. This fact must be a guarantee for
 the excellence of Messrs. Grimault et Co.'s Medi-
 cines.

NO MORE COD LIVER OIL!

**Grimault's Syrup of Iodized
 Horse Radish.**

This medicine has been administered with the utmost
 success in the Hospitals of Paris. It is a perfect substi-
 tute for Cod Liver Oil, and has been found most benefi-
 cial in Diseases of the Chest, Scrofula, Lymphatic
 Disorders, Green Sickness, Muscular Atony,
 and Loss of Appetite. It regenerates the constitu-
 tion in purifying the blood, it being the most powerful
 depurgative known. It has also been applied with happy
 results in Diseases of the Skin. Further, it will be
 found to be of great benefit to young children subject to
 Humors and Obstructions of the Glands.

CONSUMPTION CURED!

**Grimault's Syrup of Hypo-
 phosphite of Lime.**

This new medicine is considered to be a sovereign
 remedy in case of Phthisis and other Diseases of the
 Lungs. It promptly removes the most serious symp-
 toms. The cough is relieved, night perspirations cease
 and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of Grimault
 & Co. is affixed to the bottle, as this Syrup is liable to
 imitations.

**NO MORE DIFFICULT OR PAINFUL
 DIGESTION!**

DR BURINDUBUISSON'S

(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the
 most reputed medical men in France in cases of derange-
 ments of the digestive organs, such as

Gastritis,

Gastralgia,

Long and Laborious Digestion,

Wind in the Stomach and Bowels,

Emaciation,

Jaundice, and

Complaints of the Liver & Lungs

NERVOUS HEADACHE,

NEURALGIA,

DIARRHEA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazil
 has been employed since time immemorial to cure
 Inflammation of the Bowels. It has proved to be
 of the greatest service in cases of
 Cholera, as it is a preventive and a cure in cases of
 Diarrhoea.
